Community Assessment

A systematic method of analyzing how specific features (e.g., safety and accountability) are or are not incorporated into the daily work routines of practitioners

A Community Assessment....

Is *not* a performance review tool
Does *not* assess individual effectiveness
Will *not* help you finally remove that troublesome judge
Is an inquiry into the **institutional response** to domestic violence or sexual assault: how we are organized and coordinated to think about and act on cases

Steps in Conducting an Assessment

1. Map case processing
2. Collect data
3. Analyze data
4. Generate and articulate findings
5. Implement solutions
